“ What caught my attention (about rowing), was that these people would show up everyday, not for million dollar contracts, not for cheerleaders, not for busloads of fans, but for themselves. They would rip apart their hands and break their back for the person in front of them, the person behind them, and for themselves. And those were the kind of people I needed in my life. **”**

'A Most Beautiful Thing' by Arshay Cooper

Welcome members and friends,

The Committee of Management of the Balmain Rowing Club is pleased to invite you to the Annual General Meeting of the Club to be held at Balmain Sailing Club at 10:30 am on 2nd August 2020. The Annual Report and Audited Financial Statements of the Club will be submitted for your consideration and approval.

AGM Agenda

1. Welcome to members and friends and apologies from those unable to attend.
2. Paying of respect to deceased members.
3. Minutes of 2019 AGM
4. Receive and consider the following:
 - a. The Annual Report of the Committee of Management
 - b. Audited Financial Statements
5. Nominations for the following Office Bearers and Committee Members
 - a. Honorary Secretary
 - b. Honorary Treasurer
 - c. Committee of Management (2)
6. Life membership: Matthew Braithwaite-Young (Special Resolution)

The Board recommends to the AGM that Matthew Braithwaite-Young be appointed as a Life Member.

Matthew competed for the club in the open and masters squads and served on the Committee for 15 years. He has assisted with fundraising and sponsorships, coaching learn-to-row and masters men, the Iron Cove bridge pylon relocation and other safety initiatives. Matthew married at the Club in 2000, was joint club champion in 2002 and twice recipient of the Col Carpenter trophy. Unfortunately, Matthew has sustained an injury that prevents him from rowing. In recognition of Matthew's service and to retain the energy and camaraderie he brings to the Club, the Board recommends granting Life Membership.

This item is to be voted on as a Special Resolution.

Please note that members of the club must be financial in order to speak during the meeting, vote in motions and in elections or to receive nomination for trophies. Voting is limited to those who have been Active Members for at least six months and are at least 18 years of age.

Yours sincerely,

Joseph Grech
For and on behalf of the BRC Committee

President's Message

At this time last year I think no one could have foreseen that the world would be in the grip of a pandemic and that the country would have been in lockdown requiring the club doors to be closed. The virus breakout necessitated perhaps the first ever prolonged closing of the club doors (around 10 weeks) in April and May. Our thanks go to our generous members and supporters of their assistance and understanding. Safety and procedural documents have had to be written and in this I would like to acknowledge the work of Jeremy Child, the presidents of Leichhardt RC (Stephen Duff) and Drummoyne RC (Kathleen Hextall) for their assistance with what is an extraordinary situation. As this is being written we are yet to see the end of the tunnel but we are confident as a club that with the help of our friends and resources at hand that we will all get through this difficult period.

Membership has stayed fairly much the same as last year at around one eighty, once again club secretary Maria O'Connor has kept the membership in good order. The challenge of the year ahead is how to manage and extend new membership categories for a more diversified Balmain Rowing Club. This year sees the new RNSW membership category of "indoor rowing" so watch this space

The club finances have taken a financial hit from reduced income from other sources such as not being able to hire out the hall, sponsorships or being able to run learn to row courses due to Covid restrictions. In this domain on behalf of the club I would like to express appreciation to Mark Thompson and ML Aymonier for maintaining the accounts and providing information that has allowed the committee to make decisions.

In this leaner year the club needs to acknowledge the work of our two captains Nick MacDonald and Renate Ijima for the running of boats and crews at regattas. From these captains as well as the expected duties we have seen implemented new ways of running learn to row program and the extension of Junior access to the club. To this point we would sincerely wish to thank Zoe Matthews for her never failing enthusiasm for taking up the task of introducing many to the sport of rowing and running our schools program.

With increased and diverse membership the managing of boats is always a big challenge. Quietly slipping into the Boatmasters role this year is Joe Thoennes. Joe comes from a computing background and so yes we are getting serious organisation. New racks have sprung up and we have even managed to tame that messy area at the back of the club with the relocation of often used bits being "at hand" thus eliminating the need to upend the bench in search of that elusive washer. Thank you Joe.

On the legal front the club would like to thank the ongoing work of committee member Jeremy Child who has greatly assisted in the application of his legal knowledge to "issues pending" legal interpretation of almost weekly adaptation of CV19 government advice

There is also ongoing work in our archives Beverly Malone has been busy in finding out where we have come from and embellishing our archive. This year we have rediscovered The Balmain Rag (1931) edited by none other than Francis Turner (clubman of the year trophy) "never mind what you send in, truth or fabrication, I prefer fabrication" its good to see that members at that time had a serious sense of humour.

The requirements and demands of safety and governance is always a big challenge of an organisation such as ours. There seems to be an unending number of procedures and guidelines that we need to take on board. I would like to thank June Roberts, Janine Lippi and Polly Pickles for undertaking and maintaining membership governance roles and Bob Greaves for maintaining and enhancing safety procedures for members and the building

Our media face is always a challenge I'd like to acknowledge the work of Matthew Braithwaite Young for guiding the club in the PR domain and Rose Russell for maintaining our website.

Get together type fundraising events this year was restricted to a couple of social events namely "the slow slides" hosted to a very professional level (not a yellow chair event) by Juliette Annand, Vic Clay and Rose Russell. These social events reinforce the community fabric of the club and we look forward to more opportunities in the near future post CV19.

This year I would like to acknowledge the efforts of Richard Armitage has bought to committee "new legs" in the area of funding applications. This year we have been successful in gaining funding from the Community Building Partnership and 2019/20 and the Local Sports Grant Program through the office of Jamie Parker.

With this funding will this year (hopefully) realise the side access way and the purchase of specific equipment for the junior program. Thank you Richard and Jamie

We are nowhere without our team of volunteers. Top of the list is our team of coaches and squad leaders who answered the call. Also there are a team of dedicated individuals happy to help all of these individual tasks completed make for a structured, clean and healthy environment to participate the club owes our success to your efforts.

To close this year the board I would like to recommend that Matthew Braithwaite-Young be appointed as a Life Member. Matthew has rendered distinguished service to the Club over his twenty years of membership as well as being a regular competitive rower, Matthew has regularly served on the Committee, managing club fundraising and sponsorships, coaching the learn-to-row program and masters men, assisting with building projects and safety initiatives, and even got married at the Club. In recognition of Matthew's distinguished service, and to retain the energy, camaraderie and commitment Matthew brings to the Club. The committee proposes Life membership to acknowledge this significant and ongoing contribution.

Joe Grech,
President BRC

Captain's Report

In the shortened 2019-20 season BRC scored 230.5 premiership points, finishing thirteenth on the table. 122 points were earned by our all conquering BRC para athletes – great work guys! Of course this season many regattas have been cancelled, limiting our ability to score points, especially masters regattas and championship events.

I'd like to encourage every member to redouble their racing efforts in the season ahead – one of our reasons for being is to compete in the RNSW competition. If there is anything the committee or your Captains can do to make your racing more enjoyable and more frequent, please speak up.

The early part of the season was dominated by head races and time trials. BRC fielded many entries and athletes and crews used these races as preparation for the Head of the Yarra down in Melbourne in late November. Something new for this season was the Women's Masters 8+ heading down south for the Head of the Shoalhaven in Nowra. BRC has not contested this race recently however all members enjoyed the racing and I have a feeling we will be back in force this year.

Another highlight was the Iron Cove Classic Series. BRC fielded four 8+ crews at the first two ICC events and six at the last one. That's 54 BRC members out racing – great work everyone!

The Head of the Yarra itself was a great event. Six 8+ crews made the trip down south and showed their tiger colours. Congratulations to all the athletes who raced – especially those experiencing the big race for the first time.

Short course racing commenced in October with the RNSW Spring Regatta and really got cracking in December with the Reindeer regatta and then January with Taree. Last year you may remember we fielded 162 seats at the Taree regatta. This year there was a smaller contingent of 89 seats so again I'd encourage everyone to put Taree in the diary and make a weekend of it. Despite the smaller numbers BRC ended up in the points on eleven occasions including a maiden victory in the WD2X.

Short course racing continued through the summer. The BRC regatta was well attend with 89 entries from BRC members. Thank you as always to the legion of BRC volunteers who ran the regatta, allowing BRC athletes to race.

The short course season concluded with the Drummoyne regatta on the fifteenth of March with the balance of regattas for season cancelled due to the Covid-19 pandemic.

This has been one of the most unusual seasons for the club and for rowing in general in many years. Our sport had to adapt, adjust or simply stop for while in the best interests of our community. With that in mind, our club has been rowing from the same location since its inception in 1882, through two world wars, a severe pandemic in 1918 and through countless changes and adaptations. With good will and the efforts of its members, I am confident we will be here long into the future and there will be many more BRC Captains recording their thoughts as the season rolls around.

Thankyou very much to all the athletes and members who have contributed on the water and off during the season just gone. It been particularly great to hear of the all the connections maintained between members during the periods of enforced lockdown. Zoom catch ups have been running hot!

Thank you to all the coaches for supporting your athletes through the challenges of this season and adapting so well in recent months. Our sport relies on coaches more than most so please show them your appreciation at every opportunity.

Thankyou very much to the committee of management for their actions guiding the club and thank you very much to Vice Captain Renate IJpma and President Joe Grech for their constant support and encouragement. The club is fortunate in having such experience in its leadership team.

Finally as I write, the club has been bustling with new activity this last few weeks. Season 20-21 is upon us. My wish for all of us for the season ahead is to stay safe, train well and race hard...go Tigers!

Nick MacDonald
Captain, BRC

Treasurer's Report

What a difference a year makes.

The club's financial position remains strong with its cash position as at 31 March 2020 being \$203,040 compared to \$338,613 the previous year. The reason for the significant drop in cash reserves is the renovation project that gave the club new bathrooms and kitchen facilities.

The club's audited net profit was a modest \$1,095 compared to last year's record profit of \$130,362, compared to \$70,947 in 2018 and \$60,660 in 2017. We should not forget the reason for the record profit was the very generous bequest by BRC Patron George Neilson of \$71,412.

The cost of the renovation was \$159,106 and would have been significantly more but for the efforts of our President, Joe Grech and Life Members, Richard Hunt and David Longhurst, and other members who expect nothing in return except to have a better club. The value of the renovation is reflected in the increase in Assets in the Balance Sheet.

The club still has a pledge from the Inner West Council for \$100,000 for the future side access project.

I can confirm that the club has no borrowings and negligible liabilities. The trailer, club-house, fleet and fixtures and fittings are fully insured. The shed has a fire safety check every six months.

Why has the profit dropped so much?

The drop in net profit again highlights that the club relies on income over and above membership renewals. The club's expenses for this year were \$158,879 but its membership income was \$74,672, so the difference has to be made up mostly by fundraising.

Donations this year were significantly down on last year when the George Neilson bequest was received. \$5,824 was raised from Australian Sports Foundation tax deductible donations.

Hall Hire income reduced from \$44,656 to \$30,635 as at 31 March 2020. Due to the impact of COVID-19 pandemic, all hall hirers cancelled their events and the club refunded income that would have contributed to the 2020/2021 financial year. There has been no income from Hall Hire since March 2020.

Grants - nil

Sponsorship - \$3,500 thanks to Cobden and Hayson and Dick's Hotel.

Fundraising - \$2,779 thanks to Back-to-Balmain and member events.

Total Fundraising was \$42,738 for the year ending 31 March 2020.

Where does the money go?

Depreciation expense - \$34,794 - accounting treatment of a non-cash item. The club depreciates the following items according to accounting principles: clubhouse, property improvements, club equipment and fleet and equipment.

Insurance - \$26,392 - for shed, club equipment, fleet and equipment and the trailer.

Disposal of Assets - \$15,205 - this expense is due to the disposal of assets as a result of the renovation project.

Maintenance of the shed and the fleet, fuel, cleaning, utilities, rates, fees, registrations, levies and other charges.

Who does the work?

Your seat fees - Melita Stimpson runs our Seat Fee Account and sends funds to RNSW, tracks your payments and unfortunately has to ask you for money.

Your membership - Maria O'Connor, BRC Secretary who runs Revolutionise, our membership software system.

Your bookkeeping and your BRC bank account - Marie-Laure Aymonier - this is an important role that helps run MYOB and protects the Treasury function and BRC funds.

Your hall hire - Louella Oswald - does a great job making sure the shed is up to standard.

Your grant applications - Joe Grech, Richard Armitage and Matthew Braithwaite-Young have all contributed to various grant applications.

Your Boatmaster - invaluable work done by Joe Thoennes - you may have noticed the reorganisation and improvements downstairs.

Your Committee - finance accountability and governance lies with the Committee, that is, accounts payable, accounts receivable, banking, BAS lodgement, MYOB reconciliations, cash flow, grant applications, insurance, Australian Sports Foundation funding, end-of-year financial statements and audit.

Your Committee - chases sponsorship funds - it is not an easy task to successfully ask businesses to part with money so I'd like to thank Joe Grech and Matthew Braithwaite-Young in particular.

Post 31 March 2019 significant matters:

The effect of COVID-19 on the club.

COVID-19 is having and will continue to have a significant impact on BRC. The club has lost its hall hire income, its sponsorships and income from social gatherings. From 1 April 2020 to 30 June 2020 (3 months), the club has spent \$50,000 on running the club (insurance, repairs, water, electricity etc) and has received no income. As mentioned, the club relies heavily on income other than from membership subscriptions.

Your Committee is ever active pursuing grant applications and has been successful in obtaining two. One from NSW Office of Sport (\$4,750) for a junior girls lightweight scull and another from NSW Community Building Partnership (\$30,000) for building works.

The message is that the club has survived so far but it has spent a little over \$159,000 on renovations and the COVID-19 pandemic has impacted fundraising. Now is the time to support this great club. It's worth repeating, it costs around \$160,000 to keep the club going each year but membership income is only around \$75,000.

Copies of the 2020 audited accounts are available here now. If you'd like a soft copy please email treasurer@balmainrowingclub.com

Same as last year, if anyone would like to help, learn and get some finance and treasury skills, then please get in contact (same email above).

Mark Thompson
Treasurer, BRC

Boat Master's Report

A New Scull for the Juniors

A lightweight Sykes scull is currently on order. This is an "Accelerator model with a carbon and honeycomb construction with a FISA minimum weight. Shells made in china with the fitting done in Australia. <https://www.sykes.com.au/collections/accelerator-range/products/accelerator>.

Boat Usage

Our boats have had an easy winter due to Covid restrictions. This has allowed time for inspection and maintenance of the more heavily used boats, starting with sculls up through quads, so far. Pairs, Fours, and Eights are next.

As we partially opened in mid-May, the singles moved into a heavy rotation as they were the only boats we could row, until July when we could start back in Doubles/Pairs and Quads/Fours. Currently, the heaviest used singles averaging about one session every 2 days while the

Boat Maintenance

During the club's temporary closure, and my initial Boatmaster role, my first order of business was to return all boats possible to working order. For most boats, this was generally "shed fixable" mechanical issues. I'm happy to say that all rowable boats except 2 singles have been returned to working order.

Two newer singles have extensive hull damage that will require the shells to be sent out for repair. The damage appears to have been caused by quick release riggers peeling from their mounting plates, which caused extreme torque and tore the shell at the gunnel. Further investigation is ongoing, with the possibility of better mounting plates being fitted. Double slotted aluminium plates are less susceptible to incorrect mounting of a quick release rigger.

Popular boats are in back high demand. Even so, with the exception of the two shells, boat wear/damage is minimal with boats typically remaining rowable or returned to rowable condition within a few days. The exception to this are shoes. A lot of shoes are becoming a bit ragged.

People are doing a bit better in reporting damage to me, usually in person or via email. The ladies, especially, are very good about this. I'm generally in and about the shed most days of a week, rowing and working on boats, so the chances of people seeing me to report problems directly are good.

Maintenance

I've cleaned the work area, sorted the tools, and restocked most parts. A few of the more expensive parts are on our "to procure" list, especially new shoes. The idea behind the cleanup is that being able to quickly grab the right tool and part requires less time in the shed and gives more time on the water.

Members are encouraged to fix any problems discovered during their row before the boat is returned to the rack. Simple things like replacing wheels, swivels, foot stretcher components, hand grips and oar buttons should be within the capability of rowers.

I'm preparing clear illustrated "how tos" for most routine parts. For example: wheel replacements. There are specific "washer/bolt" combinations that provide the best fit, performance, and durability and adhering to these standards will not only keep the part running well and making the row more pleasant, they also prevent cascading failure. An example: a bad wheel installation can damage the seat rails.

Looking ahead, I will continue going over each boat bow to stern, replacing all hardware with the correct material and setup. I would encourage all members to look after our equipment, keep the work area clean, and report any issues to the boatmaster immediately.

I've been reorganizing the shed, optimizing rigger and oar storage thereby making it easier to find and retrieve equipment. This organization also helps prevent or reduce incidental damage to equipment.

With funding directed towards building works, we all must contribute to keep what we have in good condition if we are to enjoy our sport.

My entire philosophy can be summed up with: less time in the shed and more time on the water having fun!

Joseph Thoennes.
Boat Master BRC

Building Report

The year kicked off with the completion of the long awaited Amenities area refurbishment. In short we could have waited until the big scheme of total building refurbishment was fully funded but in reality the club could not put this project on hold any longer. The Hall hirers, club users and especially the members just deserved better. The project was completed with a couple of extras thrown in by our sponsor Rombro Constructions under the guidance of Richard Romano. Thank you Richard. This project provides modern kitchen area, storage space for indoor rowing equipment and chairs and compliant male, female and disabled toilet and shower facilities.

The project budget was adhered to only by the assistance of club members. Demo and general assistance to the builder led by Richard Hunt. Thank you Richard. It is fitting then that the refurbished part of the club has been named the Hunt extension in recognition of the contribution of Richard and Sandra Hunt for their sustained contribution to the club.

From the historical perspective it also return the entry elevation of the club to the two windows and a central door, just as it was when it was built 137 years ago or perhaps as the former Pritchard boat shed some 140 years ago when the building was minus the hall and boats storage wing. This attention to historical detail will we believe showcase the potential of the club house to be more valued in the community for its historical value. This we also believe will pay dividends in the future for the gaining of grant funding for future upgrades as the rough diamond shows some shine.

The Project was funded by the club, supported by Estate of George

Neilson Federal and Government Stronger Communities Grant. Project admin by Mark Thompson

The Hunt Wing was opened at an informal club gathering by the Hon. Anthony Albanese MP and our own para athlete Zarni Tun.

The focus of the rest of the year then shifted not to any built projects but toward how to fund the balance of the construction work now made more difficult due to the Covid pandemic. The added challenge made clear via information provided in a report undertaken for the Dawn Frazer pool renovation is that the existing boatshed is likely to suffer from the affects of coastal inundation due to global heating within the next ten years. The rising sea level is already negatively impacting on the actual supporting structure of the 1882 shed and this will be accelerated in the coming years

I would like to thank Richard Armitage for his work in pursuing funding options on behalf of the club and looking into alternative models. In short we all need to redouble our attention to this task rather than just being left to chance, every club member needs to open up any avenue that might assist in this venture.

In the next twelve months the club intends to pursue the building of the side access way to resolve the issue of lack of disabled access to the pontoon and solve that 137 year old problem of safe boat loading.

Thanks to all for your ongoing support in the various building projects undertaken at the shed.

Joe Grech + Richard Armitage
Building committee

Archive Report

Our archive collection holds a treasure trove of valuable resource which are frequently relied on to research historical events and information. Through the history section on our website I often receive enquiries from family historians who believe their ancestor rowed for our Club. It can be an exciting journey as we discover missing parts in a grandfather or great grandfather's life as an oarsman. In most cases we can provide an insight into their time at the club with rowing profiles, results and often a photograph of the grandfather as a young strong oarsman. One such inquiry was from the great great niece of Stuart Amess one of our Olympic champions of 1912. I was able to provide the family with photos of Stuart, rowing profiles and information on his long standing involvement with BRC. Di sent the message below -

"I want to thank you for putting this information online. For people like me who like to find those family members who had very interesting stories to tell it is a joy. Finding out that Stuart was a member of the 1912 Olympic Team was great, but getting the story behind that is even more important".

Another enquiry received was from the Preller family from South Africa who had recently moved to Sydney. Their great Grandfather John Langley rowed for BRC in the 1880's before he moved to South Africa. From our archives we found that the Langley family were pioneers of BRC with John Langley and his three brothers being active members during the 1880's & 1890's. Christine Preller and her daughter visited the clubhouse where they took an emotional journey walking in the same footsteps as their ancestors John Langley and his brothers.

We recognise with pride that the Balmain Rowing Club shed is the oldest rowing shed in Australia. It has defied all odds by surviving for nearly 140 years. As a tribute to the great old Lady I put together a pictorial life journey of Balmain's historic timber clubhouse by compiling 140 years of images dating from the 1880's through to today. For a trip through time you can view her journey on our website or YouTube

<https://www.youtube.com/watch?v=MMLIMQ-8Hgw>

History was made on the 23rd March 2020, when we saw the temporary closure of the old Clubhouse due to the restrictions around the COVID-19 pandemic. Our history also records, that on the very same day, 120 years before (23rd March 1900), the Balmain Rowing Club was ordered by the Board of Health to close its doors during the Bubonic Plague epidemic. Back then, the clubhouse was quarantined to allow the Captain Mr Fitzsimons to fumigate and disinfect the shed. Clothing left in the lockers belonging to the victim Alfred Fleming was burnt. Alfred Fleming was removed to the Quarantine Station where he did recover and eventually returned to rowing.

During the club's closure I took the opportunity of showcasing some treasures from our archives by scanning "The Balmain Rag". In May 1931 the official organ of Balmain Rowing Club was launched and named "The Balmain Rag". The editor was our treasurer at the time, Francis Turner. The object of the monthly bulletin was to keep members informed and at the same time, have some fun. Six editions of the colourful, informative and amusing Balmain Rag have survived. They are a unique time capsule capturing the activities and atmosphere of the Club leading up to our Jubilee celebrations, ninety years ago. All six editions of The Balmain Rag can be found on our website

Balmain Rowing club's life member Allen Turner first represented BRC as a junior in April 1958 at the J B Sharp regatta. Allen went on to have an exceptional career in rowing, actively competing for about 50 years. Allen is seen here with his collection of medals he received for podium finishes in championships races, including the World championships, Veterans championships, Australian championships & World Law Enforcement Olympics, just to name a few.
